Glenn Jacobson

Lead Front End Web Developer

Profile

Experienced Lead Front End Web Developer with expertise in HTML, CSS, JavaScript, Accessibility, SEO and Performance Optimisation. Ability to lead and mentor junior developers, troubleshoot and debug software issues, and develop high-performance web applications. Comfortable with large/complex builds and liaising with stakeholders in a professional and helpful manner.

Recent Experience

- 2018 – Present
OSE Digital | Brisbane CBD
Lead Front End Web Developer
Improving development procedures on the front end, building complex e-commerce web solutions, focusing on Magento, Vue, React and WordPress. Managing teams. Leading and mentoring junior and intermediate developers. Setting up automated E2E testing pipeline with Cypress.
- 2017 – 2018
Theola (formerly Willing Accomplice) | Brisbane CBD
Front End Web Developer
Built brochure and enquiry websites in WordPress. Managing devOps as needed. Self-managed WordPress builds, including; liaising with clients, designers, and managers.
- 2013 – 2017
iFactory | Bowen Hills
Front End Web Developer
Developed and maintained e-commerce and brochure websites in Joomla and WordPress. Helping to upskill other developers, as well as develop consistent website templates in Joomla and WordPress, focusing on re-usability of code, reducing development time.
